#EnvChem2019: Chemistry of the Whole Environment Research Meeting

Meeting organised by
the Environmental
Chemistry Group of
the Royal Society of
Chemistry

Date

15 October 2019

Venue

The Royal Society of Chemistry,
Burlington House, Piccadilly,
London, W1J 0BA, United
Kingdom

#EnvChem2019 provides a forum
for early career and established
researchers, working in
environmental chemistry to share
their latest research findings.

The meeting will combine
presentations from keynote
speakers with oral presentations
and a poster exhibition.

The themes of the meeting
include:

*Environmental Processes and
Chemical Fate;*

*Environmental Analysis and,
Investigation;*

Emerging Contaminants

Toxicology and Risk Assessment;

*Environmental Management and
Sustainability.*
